PROFESSIONAL SUMMARY

Senior Java Software Engineer with 8+ years of software engineering experience, including 5+ years in Java and Spring Boot. Builds and supports secure financial and enterprise backend systems using Java 17, Spring Boot, microservices, REST APIs, Apache Camel, Spring Security, JWT, and Oracle PL/SQL. Hands-on experience with Vodafone Cash donation and QR-code payment journeys, Siebel CRM and Vodafone Shop integrations, AWS and Azure environments, production troubleshooting, database optimization, automated testing, Docker, and CI/CD.

TECHNICAL SKILLS

Java & Backend: Java SE 8, Java SE 17, Spring Boot, Spring Framework, Spring MVC, Spring Data JPA, Spring Security, Spring Cloud, Hibernate, Java EE, Maven

Architecture & Integration: Microservices, REST APIs, Apache Camel, API Integration, Enterprise Application Integration, Monolithic Architecture, Design Patterns, SOLID, Clean Code

Databases: Oracle Database 19c, Oracle SQL, Oracle PL/SQL, PostgreSQL, MySQL, SQL Server, RMAN, Database Design, Query Optimization, Database Administration

Security & Testing: JWT, Authentication, Authorization, Input Validation, Secure API Development, JUnit, Mockito, Unit Testing, Integration Testing

Cloud & DevOps: AWS, Azure, Docker, Jenkins, CI/CD, Git, GitHub, SVN, Linux, Red Hat

Tools & Practices: Postman, Swagger/OpenAPI, Jira, Confluence, Agile, Scrum, SDLC, Production Troubleshooting

Additional Technologies: C#, ASP.NET Core, Windows Forms, Angular, JavaScript, Node.js, HTML, CSS, XML, JSON, Oracle ADF, TIBCO BusinessWorks 5

PROFESSIONAL EXPERIENCE

Vodafone Egypt | Senior Java Software Engineer | Aug 2024 - Present

- Develop and maintain Java 17 and Spring Boot microservices supporting Vodafone Cash, including digital donation services and QR-code payment journeys.
- Design and implement Apache Camel integration routes connecting backend microservices with Siebel CRM, Vodafone Shop, Oracle Database, and internal enterprise platforms.
- Build REST APIs and backend business logic for financial transactions, customer journeys, transaction validation, and enterprise system integration.
- Implement authentication, authorization, JWT-based security, input validation, exception handling, and secure API controls using Spring Security.
- Develop and support distributed backend services across AWS and Azure environments, ensuring reliable communication between microservices and enterprise systems.
- Diagnose and resolve production incidents involving microservices, REST APIs, Camel routes, QR-code transaction flows, enterprise integrations, and Oracle Database components.
- Manage dependencies, builds, and packaging with Maven; collaborate with Agile teams to test integrations and deliver production-ready releases.

Environment: Java 17, Spring Boot, Apache Camel, Microservices, REST APIs, Spring Security, JWT, Maven, Oracle Database, Oracle PL/SQL, AWS, Azure, Git, Postman, Swagger/OpenAPI, Jira, Agile, Scrum

M.T.S IT | Java Software Engineer | Jan 2021 - Aug 2024

- Developed Java and Spring Boot backend services and microservices for work-order and network-inventory systems.
- Built REST APIs and backend modules supporting workflow automation, inventory tracking, reporting, and enterprise business operations.
- Integrated backend services with Oracle ADF, H.I.V.E., Telegraph, and internal enterprise platforms.
- Developed and optimized Oracle PL/SQL procedures, packages, triggers, database objects, and complex SQL queries.
- Resolved application, integration, and database issues in collaboration with cross-functional teams.

Environment: Java, Spring Boot, Microservices, REST APIs, Oracle Database, Oracle SQL, Oracle PL/SQL, Oracle ADF, Maven, Git, Postman, Agile, Scrum

M.T.S IT | Oracle Database Administrator | Jan 2020 - Dec 2020

- Administered Oracle Database 19c environments, including installation, configuration, patching, monitoring, and routine maintenance.
- Managed schemas, users, roles, privileges, tablespaces, indexes, database objects, security, and access controls.
- Tuned SQL queries and database objects to resolve performance and operational issues.
- Performed database backup and recovery operations using Oracle RMAN.
- Documented database procedures, maintenance activities, and recovery processes.

Integrated Solutions | C# Developer | Mar 2018 - Nov 2019

- Developed and maintained an electronic invoicing system using C#, ASP.NET Core, SQL Server, and Oracle Database.
- Built application modules for invoicing, reporting, data management, and business workflow automation.
- Supported migration from Windows Forms to ASP.NET Core, enabling web-based access and modernizing the application architecture.
- Supported database migration from SQL Server to Oracle Database and optimized database objects and SQL queries.
- Resolved application and database issues and implemented functional enhancements to improve system stability and usability.

Environment: C#, ASP.NET Core, Windows Forms, SQL Server, Oracle Database, T-SQL, PL/SQL

SELECTED PROJECTS

E-commerce Platform | Jul 2024 - Present | [Review Code](#)

Spring Boot, PostgreSQL, Angular

- Built a full-stack e-commerce platform with a Spring Boot backend, PostgreSQL database, and Angular frontend.
- Implemented backend business logic, persistent data management, and application-level performance and security improvements.

Human Resources Management System | May 2023 - Nov 2023 | [Review Code](#)

Spring Boot, Spring Security, PostgreSQL

- Developed a human resources management application using Spring Boot and Spring Security.
- Implemented application security and integrated PostgreSQL for persistent data storage.

Medicine Stock Management System | Oct 2021 - Apr 2022 | [Review Code](#)

Spring Boot, Spring Security, MySQL

- Developed a medicine inventory management application using Spring Boot and Spring Security.
- Designed the MySQL database structure and implemented persistent inventory data storage.

EDUCATION

Master of Science in Computer Science and Software Engineering | 2022 - Present

Arab Academy for Science, Technology & Maritime Transport (AASTMT)

Bachelor of Science in Computer Science | 2019

Arab Academy for Science, Technology & Maritime Transport (AASTMT)

CERTIFICATIONS

- Oracle Certified Professional: Java SE 17 Developer - Oracle
- Oracle Certified Associate, Java SE 8 Programmer - Oracle

ADDITIONAL TRAINING

- Oracle SQL and PL/SQL Developer Fundamentals - Oracle
- Oracle Forms and Reports Developer - Oracle
- Java Collections - LinkedIn Learning
- Java Programming - HackerRank
- Software Development Life Cycle (SDLC) - Udemy
