PROFESSIONAL SUMMARY

Senior Java and Spring Boot Engineer with 8+ years of software engineering experience, including 5+ years focused on Java, Spring Boot, microservices, REST APIs, Spring Security, and Oracle PL/SQL. Experienced in developing secure financial services and enterprise backend systems, integrating APIs and internal platforms, working with AWS and Azure cloud environments, optimizing databases, and resolving production issues.

PROFESSIONAL EXPERIENCE

Vodafone Egypt - Senior Java Software Engineer | Aug 2024 - Present

- Develop and maintain secure microservices for financial systems using Java, Spring Boot, Spring Security, REST APIs, and Oracle Database.
- Develop and integrate backend services across AWS and Azure environments and internal enterprise systems to support reliable business operations.
- Implement authentication, authorization, validation, and API security using Spring Security and JWT.
- Diagnose and resolve production, integration, backend, and database issues to improve system stability.

M.T.S IT - Java Software Engineer | Jan 2021 - Aug 2024

- Promoted from Oracle Database Administration to Java Software Engineer in January 2021.
- Developed work order and network inventory systems using Java, Spring Boot, REST APIs, a microservices architecture, Oracle PL/SQL, and SQL.
- Built backend modules supporting workflow automation, inventory tracking, reporting, and enterprise operations.
- Optimized PL/SQL procedures, packages, and triggers.
- Integrated backend services with Oracle ADF, H.I.V.E., Telegraph, and internal systems.

M.T.S IT - Oracle Database Administration | Jan 2020 - Dec 2020

- Administered Oracle Database 19c environments, including installation, configuration, patching, and maintenance.
- Managed schemas, users, privileges, tablespaces, indexes, database objects, security, and access controls.
- Tuned SQL performance, resolved database issues, and performed backup and recovery using Oracle RMAN.

Integrated Solutions - C# Developer | Mar 2018 - Nov 2019

- Developed an electronic invoicing system using C#, ASP.NET Core, SQL Server, and Oracle Database.
- Built modules for invoicing, reporting, data management, and business workflow automation.
- Optimized database objects and supported migration from Windows Forms to ASP.NET Core, including SQL Server-to-Oracle conversion.

TECHNICAL SKILLS

Programming Languages: Java SE 8, Java SE 17, C#, JavaScript, SQL, PL/SQL, T-SQL

Java and Backend: Spring Boot, Spring Framework, Spring MVC, Spring Data JPA, Spring Security, Spring Cloud, Hibernate, Java EE, REST APIs, API Integration, Maven, Oracle ADF, TIBCO BusinessWorks 5

Databases: Oracle Database 19c, PostgreSQL, MySQL, SQL Server, RMAN, Database Design, Database Administration, Query Optimization, Database Troubleshooting

Security and Testing: JWT, Authentication, Authorization, Encryption, Secure API Development, JUnit, Mockito, Unit Testing, Integration Testing

DevOps and Tools: Git, GitHub, SVN, Jenkins, Docker, Linux, Red Hat, Postman, Swagger, Jira, Confluence, CI/CD

Cloud and Architecture: AWS, Azure, Cloud-Native Development, Microservices Architecture, Monolithic Architecture, Enterprise Application Architecture

Web Technologies and Data Formats: Angular, Node.js, HTML, CSS, XHTML, XML, JSON

Engineering Practices: OOP, SOLID Principles, Clean Code, Design Patterns, Data Structures, Algorithms, Agile, Scrum, SDLC

SELECTED PROJECTS

E-commerce Platform | Jul 2024 - Present | [Source code](#)

- Developed a full-stack e-commerce platform with a Spring Boot backend, PostgreSQL database, and Angular frontend.
- Implemented performance and security improvements across the application.

Human Resources | May 2023 - Nov 2023 | [Source code](#)

- Developed a human resources management application using Spring Boot and Spring Security.
- Integrated Spring Security for application security and PostgreSQL for data persistence.

Stock Medicines | Oct 2021 - Apr 2022 | [Source code](#)

- Developed a medicine stock management system using Spring Boot and Spring Security.
- Designed and implemented a MySQL database for application data storage.

EDUCATION

Master of Science in Computer Science and Software Engineering | 2022 - Present

Arab Academy for Science, Technology & Maritime Transport (AASTMT)

Bachelor of Science in Computer Science | 2019

Arab Academy for Science, Technology & Maritime Transport (AASTMT)

CERTIFICATIONS AND TRAINING

- Oracle Certified Associate, Java SE 8 Programmer - Oracle
- Java SE 17 Professional Certification - Oracle
- Oracle SQL and PL/SQL Developer Fundamentals - Oracle
- Oracle Forms and Reports Developer - Oracle
- Java Collections - LinkedIn Learning
- Java Programming - HackerRank
- Software Development Life Cycle (SDLC) - Udemy
